CYBER SECURITY ANALYST

Cybersecurity professional with over 1 year of experience in the IT industry, specializing in web application security, VAPT, incident response, and digital forensics. Skilled in conducting security assessments, log analysis, and developing remediation strategies to protect digital assets. Committed to staying updated with the evolving threat landscape and applying best security practices. Eager to contribute expertise in a collaborative environment and continue building a successful career in cybersecurity.

STRENGTHS

- Analytical Thinking
- Problem Solving
- Adaptability
- Communication Skills
- Team Collaboration
- Time Management
- Critical Thinking
- Continuous Learning
- Detailed Reports

EXPERTISE

- VAPT
- OWASP Top 10
- Incident Response
- EDR
- Log Analysis & Monitoring
- SIEM Monitoring
- Code Analysis
- Threat Hunting
- IDS / IPS
- Vuln Management

PROFESSIONAL EXPERIENCE

SECURITY AND FORENSICS INTERN

Cyber Police Station, Navi Mumbai

June 2024 - July 2024

Assisted in cybercrime investigations, digital forensics, and OSINT operations. Gained hands-on experience in analyzing digital evidence and supporting the cybercrime investigation team.

Accomplishments:

- Assisted in gathering and analyzing evidence that contributed to solving multiple cybercrime cases.
- Developed skills in OSINT and forensic tools, aiding in digital investigations.
- Collaborated with senior officers on high-profile investigations, enhancing my understanding of procedural cyber protocols.
- Gained familiarity with digital forensic tools like Autopsy and FTK Imager for evidence recovery and analysis.

WEB DEVELOPER

University of Mumbai

April 2023 - January 2024

Designed and implemented a government website featuring dynamic forms for data collection, robust backend systems for analysis, and interactive visualizations.

Accomplishments:

- Designed and developed a government website with dynamic data collection forms.
- Engineered backend systems to aggregate, analyze, and generate actionable insights.
- Ensured compliance with government standards and security protocols.
- Enhanced data accessibility and reporting for government stakeholders.

PENETRATION TESTER / SECURITY CONSULTANT

Freelance

June 2023 - December 2023

Led 4 vulnerability assessment and penetration testing projects for various clients, identifying critical security weaknesses and providing actionable remediation strategies.

Accomplishments:

- Conducted successful VAPT projects, discovering vulnerabilities such as XSS, HTML injection, and broken access controls.
- Delivered detailed vulnerability reports and remediation plans to improve client security postures.
- Successfully identified and mitigated Insecure Direct Object References (IDOR), protecting sensitive client information.
- Integrated data visualization tools, streamlining the reporting process for clients.

SOC ANALYST INTERN

Pristine InfoSolutions Pvt. Ltd.

Conducted log analysis, risk assessments, and vulnerability management to strengthen organizational security. Focused on safeguarding digital assets and responding to potential threats.

March 2021 - June 2021

Accomplishments:

- Identified and mitigated security risks through log analysis and continuous monitoring, reducing potential attack surfaces.
- Implemented effective mitigation strategies that significantly enhanced the organization's overall security posture and playbooks.
- Improved response time to incidents by 30% through the use of automated threat detection tools.
- Developed and enforced security policies that reduced the occurrence of phishing attacks by 15%.

CERTIFICATIONS

- CompTIA Security+
- Cisco Cyber Threat Management
- Fortinet Certified Associate - Cybersecurity
- Google Professional Cybersecurity Certification
- TryHackMe Junior Penetration Tester
- ISO27001: ISMS Certified
- Splunk Engineer

EDUCATION

MASTERS IN I.T. (SPECIALIZATION IN SECURITY)

University of Mumbai

2022 - Ongoing

B.SC IN INFORMATION TECHNOLOGY

G.P.M. Degree College | GPA 8.60

2019 - 2022
